Lab 4 Rock, Paper, Scissors – Step 4

Requirements

In this lab, you will write a program that plays the game Rock, Paper, Scissors. The rules of the game are as follows:

1. Each player chooses Rock, Paper or Scissors.
2. If both players choose the same thing, the round is a tie.
3. Otherwise:
 - a. Paper wraps Rock to win
 - b. Scissors cut Paper to win
 - c. Rock breaks Scissors to win

Your program must have the following features:

1. This program will be a Java Console Application called RockPaperScissorsStep4.
 - a. Copy the code created in Step 3 to your new project to use as a starting point.
2. In this Step, you will add code that does the following:
 - a. Asks the user if he/she wants to play again after all rounds have been completed.
 - b. If user says No, the program prints out a message saying, “Thanks for playing!” and then exits.
 - c. If user says Yes, the program starts over, asking the user how many rounds he/she would like to play.
